RE: Jake Maurer

Country Music Fans:

We had Jake Maurer and his band perform at our 10<sup>th</sup> Annual Summer Roundup fundraising event in June 2018 in Kalispell, Montana and they were amazing. They helped change the vibe of our entire event; it was upbeat, fun, and we raised more money for our children's organization than in previous years.

After our dinner and speaking program, our donors hit the dance floor and enjoyed themselves for hours with cover songs they all loved. Jake engaged the crowd from the start and also played several song requests for a small donation (all of which went back to our charity; it was a great side-fundraiser). He even performed some of his original music which has a huge hit.

We received numerous calls from our donors in the days and weeks following the event saying we needed to bring Jake back; that he was entertaining, professional, and brought much needed energy to our private fundraiser. We have done just that; Jake and his band are booked to perform for us again this June. Our organization is expecting a sellout of 300+ donors because of how fast word traveled that Jake Maurer is a "must see."

I highly recommend booking Jake for your fundraiser or special occasion if you are looking to mix things up and bring some true Nashville entertainment to your event. His band members are great as well; all down to earth people who know how to entertain and put on a great show.

Please feel free to contact me if you have any questions regarding our organization's experience with Jake. He is extremely easy to work with and an affordable act that will leave your crowd wanting more.

Sincerely,

Joel Moersch
